OUR SERVICES

Warehouse & Storage

On our purpose designed 3 acre site, we have 2000 square meters of covered and 8000 square meters of open area available for storage. This provides general cargo and heavy lift storage facilities.

Heavy Transport Services

The Heavy Transport operations are coordinated centrally from our purpose designed cell, and offer a range of services that include Heavy Transport, industries services, and Project Management.

OUR SERVICES

Heavy Lifting Services

Our fleet of cranes offers capacity ranging from 8 tons to 300 metric tonnes. The cranes are well maintained and are periodically checked, tested and certified by globally renowned third party certification companies.

Complete Project Logistics

The General Haulage fleet is operated from our purpose designed depot, and encompasses such facilities as Groupage, Unit loads, Spot hire and Contract hire. We can supply any type of vehicle to suit any type.
